

## FEATURES

- **Detailed reports** measure energy usage and savings by machine.
- **Easy deployment** using Active Directory or Zenworks group policies to push out client software.
- **Centralized controls** with the familiar Lightspeed interface.
- **Power event overrides** to accommodate weekly software updates.
- **Workstation grouping**, to simplify large deployments.

## Manage network energy costs with automated energy conservation

Energy consumed by unattended, unused computers across your network can drain your budget, as well as natural resources. Yet users and IT staff are often too busy with other tasks to manually manage power usage.

An add-on to your Lightspeed implementation, **Lightspeed Power Manager** provides sustainable energy savings across your network. Power Manager monitors energy usage and directs low-power states and shutdown times. Centralized controls allow network administrators to create and enforce conservation policies in sync with the needs of users. A quick return on investment and ongoing cost savings are documented with detailed reports.

### BENEFITS

**Saves money.** By powering down unused computers, you can save \$25 to \$75 annually per PC—or \$10 to \$40 annually by simply powering off the monitor. Power Manager makes it easy to control energy consumption and costs without additional responsibilities to over-stretched IT staff.

**Conserves energy.** Not only will Power Manager save you money, it will also reduce your network's overall energy consumption. And because energy conservation is a global concern, green rebates may be available to your school.

**Offers flexibility and customization.** Power Manager balances user needs in tandem with energy conservation. Users will be alerted before a computer is going to shut down, and given the option to bypass the shut-down. You can customize inactivity definitions for your needs.

### Comprehensive, Customizable Reporting

Power Manager gives you access to comprehensive information about your energy usage and energy savings. Reports can be exported to PDF or .csv files and viewed by designated users. Power Manager includes critical reports on your network energy usage, like:

- Network power consumption
- Network savings reports
- Detailed workstation utilization

**Power Manager Savings by Computer**

Report Range: From 10/1/2009 To 10/14/2009

Summary: Average Savings: \$2.02, Total Savings: \$25.74

Domain	Computer	IP Address	Computer On	Computer Off	Hours	Cost
lightspeed	elijah_winXP	10.16.80.114	1 day, 20 hours	10/1/09	0 hours	\$2.02
lightspeed	joshua_vista	10.16.50.1	1 day, 20 hours	10/1/09	0 hours	\$2.02
lightspeed	oliver_vista	10.16.3.43	2 days, 1 hour	10/1/09	0 hours	\$1.01
lightspeed	quinn_vista	10.16.80.111	2 days, 1 hour	10/1/09	0 hours	\$1.01
lightspeed	sam_vista	10.16.3.57	2 days, 1 hour	10/1/09	0 hours	\$1.01
lightspeed	teddys_macbookpro	10.16.7.93	2 days, 1 hour	10/1/09	0 hours	\$1.01
lightspeed	teddys_winxp	10.16.3.56	2 days, 1 hour	10/1/09	0 hours	\$1.01

## Network Solutions for Safe Online Learning

### Software solutions

Manage your school network with our all-in-one solution or its components:

#### **Lightspeed** **Total Traffic Control**

Filter, secure, manage, and monitor with a single solution.

#### **Lightspeed** **Web Access Manager**

Ensure safe web browsing with customizable filtering and features for safe Web 2.0 access.

#### **Lightspeed** **Email Manager**

Archive and report on communications, while blocking spam.

#### **Lightspeed** **Security Manager**

Block viruses, spyware, and malware with desktop and gateway security.

#### **Lightspeed** **Network Traffic Manager**

Control traffic with bandwidth management.

#### **Lightspeed** **Power Manager**

Manage energy use with automated power management.

### High-capacity network solutions

High-performance, scalable appliance-based school network solutions:

#### **Lightspeed** **Rocket** Web Access Manager

Ensure safe web browsing on your high-capacity network with comprehensive, customizable filtering and features for safe Web 2.0 access.

#### **Lightspeed** **Rocket** Email Manager

Efficiently block spam on your high-capacity network, while archiving and reporting on communications.

Customize your high-capacity network solution with the addition of our other software products.

Get a comprehensive, cost-saving solution for your high-capacity network by combining the two Rocket appliances with Security Manager, Network Traffic Manager, and Power Manager.

### About Lightspeed Systems

Lightspeed Systems Inc., founded in 2000, develops comprehensive network security and management solutions for the education market. We are committed to helping schools operate their networks effectively and efficiently, so educators can provide safe online teaching and learning environments.

### Exceptional Service and Support

Our unparalleled service and support mean our solutions will continue to deliver, long after their easy implementation. With any Lightspeed Systems solution, you can depend on:

- 24/7 live-person phone technical support.
- Comprehensive online knowledge bases.
- The Lightspeed Wiki, rife with user collaboration and product expertise.

### Professional Development & Training

Professional Services: We provide customized, collaborative professional development services to address your specific needs. For more information, please contact [ps@lightspeedsystems.com](mailto:ps@lightspeedsystems.com)

Training: To help you fully leverage your investment in Lightspeed Systems solutions, we offer an array of training options.

- Online introductory training and user demonstration videos.
- Administrator certification.
- Regional training throughout the U.S.
