- **Store & forward** email management.
- **Hardened & secured OS.**
- **5-year warranty.**

Also available as Lightspeed Email Manager, a software-only solution for smaller networks.

Efficiently block spam on your high-capacity network, while archiving and reporting on communications

Your users rely on email for efficient communication and increasingly for shared knowledge. But email abuse can degrade network performance, leave your system vulnerable to threats, and expose users to time-wasting and offensive content. And on high-capacity networks with high email volumes, blocking spam and managing communications can degrade network speed and performance.

The Lightspeed Rocket, Email Manager helps you ensure that your Acceptable Use Policies on email usage are being enforced and that spam is blocked—without hindering staff’s ability to work and communicate and without hindering network performance. The Lightspeed Rocket, Email Manager lets you easily block spam and monitor, regulate, report on, and archive all messaging communications.

BENEFITS

Helps you conform to federal regulations.

With the Lightspeed Rocket, Email Manager, every email is securely archived, helping you meet federal e-discovery regulations.

Increases user productivity with powerful spam blocking.

The Lightspeed Rocket, Email Manager blocks time- and resource-draining spam. Actionable daily mail summaries sent to end users take the burden of spam management off of IT and push control to end users. For optimal effectiveness and efficiency, the spam blocking appliance is placed out of line in order to process spam before it reaches your mail server, reducing the load on your server.

Reduces exposure to harmful or offensive content.

Email content filtering, spam blocking, and virus detection all help ensure that email communication doesn’t expose your users to offensive content, and you to potential legal liabilities.

Frees up essential bandwidth.

The Lightspeed Rocket, Email Manager allows you to apply limitations to message file size to ensure that your network keeps running smoothly.

Ensures speed and power.

The Lightspeed Rocket, Email Manger includes a high-speed appliance, operating on top of a hardened and secured operating system, preinstalled

with our best-of-breed spam filtering and email management software. This integrated solution provides fast, reliable communications management for your high-traffic network.

Comprehensive, Customizable Reporting

The Lightspeed Rocket, Email Manager gives you access to comprehensive information about who is using your email system for what, so you can adjust Acceptable Use Policies, change allowed usages, review problems and troubleshoot issues, and plan for ongoing needs. You can see a high-level overview of email and messaging usage, and then drill down for detailed information, with reports like:

- Top Email Senders/Receivers
- Mail Traffic Overview Chart
- Spam Mail
- Virus Mail
- Suspicious Messages

	Standard	Redundant
CAPACITY		
Throughput (/sec)	1Gb	1Gb
Messages/day	<100k	>100k
HARDWARE		
Rackmount chassis	1U	1U
Dimensions (WxHxD in.)	17 x 1.7 x 25.6	17 x 1.7 x 25.6
Power supply	Single	Dual Hot Swap
Storage	2x250 GB Hot Swap RAID 1 Drives (250GB Capacity)	4x150GB Hot Swap RAID 10 Drives (300 GB Capacity)

Network Solutions for Safe Online Learning

Software solutions

Manage your school network with our all-in-one solution or its components:

Lightspeed Total Traffic Control

Filter, secure, manage, and monitor with a single solution.

Lightspeed Web Access Manager

Ensure safe web browsing with customizable filtering and features for safe Web 2.0 access.

Lightspeed Email Manager

Archive and report on communications, while blocking spam.

Lightspeed Security Manager

Block viruses, spyware, and malware with desktop and gateway security.

Lightspeed Network Traffic Manager

Control traffic with bandwidth management.

Lightspeed Power Manager

Manage energy use with automated power management.

High-capacity network solutions

High-performance, scalable appliance-based school network solutions:

Lightspeed Rocket Web Access Manager

Ensure safe web browsing on your high-capacity network with comprehensive, customizable filtering and features for safe Web 2.0 access.

Lightspeed Rocket Email Manager

Efficiently block spam on your high-capacity network, while archiving and reporting on communications.

Customize your high-capacity network solution with the addition of our other software products.

Get a comprehensive, cost-saving solution for your high-capacity network by combining the two Rocket appliances with Security Manager, Network Traffic Manager, and Power Manager.

About Lightspeed Systems

Lightspeed Systems Inc., founded in 1999, develops comprehensive network security and management solutions for the education market. We are committed to helping schools operate their networks effectively and efficiently, so educators can provide safe online teaching and learning environments.

Exceptional Service and Support

Our unparalleled service and support mean our solutions will continue to deliver, long after their easy implementation. With any Lightspeed Systems solution, you can depend on:

- 24/7 live-person phone technical support.
- Comprehensive online knowledge bases.
- The Lightspeed Wiki, rife with user collaboration and product expertise.

Professional Development & Training

Professional Development: We provide customized, collaborative professional development services to address your specific needs. For more information, please contact pd@lightspeedsystems.com

Training: To help you fully leverage your investment in Lightspeed Systems solutions, we offer an array of training options. For more information, please contact training@lightspeedsystems.com.

- Online introductory training and user demonstration videos.
- Administrator certification.
- Regional training throughout the U.S.
