

FEATURES

- **Comprehensive and accurate** URL database with more than one billion entries grouped into education-specific categories.
- **Multiple layers of anonymous proxy detection** and blocking to keep users from bypassing your filter and accessing blocked sites.
- **netTrekker d.i. integration** to ensure seamless access to approved netTrekker sites.
- **Protection for school computers outside the network**—without a VPN, from any location, with any type of Internet connection—via the Guide Mobile Filter.
- **Flexible filtering for thin clients**, including NComputing, Citrix, and Windows Terminal Server.
- **Ability to create different policies** based on user, IP, group, organizational unit, domain.
- **Peer-to-peer application** and file-type blocking.
- **Integration with Student Information Systems** for comprehensive, individualized user information and custom reporting.
- **Daily signature updates**, and immediate emergency updates, directly from Lightspeed Systems.
- **Ability to accommodate even the heaviest traffic loads**, up to 10 Gb of Internet bandwidth, without hindering performance.
- **Hardened and secured** operating system.
- **Network threat protection.**
- **Educational Video Library** to share approved YouTube videos.
- **NEW! My Big Campus with a Resource Library and Collaboration site for safe Web 2.0 access.**
- **5-year warranty.**

Lightspeed
Web Access Manager

Also available as Lightspeed Web Access Manager, a software-only solution for smaller networks.

Ensure safe web browsing on your high-capacity network with comprehensive, customizable filtering and features for safe Web 2.0 access

Regulations, policies, safety, and security all make an Internet filter essential in schools. But over-blocking limits the potential of the Web to promote participatory learning and acquisition of 21st-century skills. And on large networks with high bandwidth, other filtering solutions can create bottlenecks and slow down traffic. Web access management on high-capacity networks needs to balance educational Web 2.0 use with network security and student safety—while maintaining network performance.

The Lightspeed Rocket, Web Access Manager provides an integrated hardware-software solution for web filtering—offering intelligent features for customization, granular policy control, safe Web 2.0 access, and mobile filtering—to ensure safe web browsing for your users and speed and reliability for your network.

BENEFITS

Protects users from inappropriate material on the Internet. The Lightspeed Rocket, Web Access Manager detects and/or blocks access to inappropriate material on the Internet based on our extensive, education-specific URL database, as well as your own custom allow and block lists. For optimal effectiveness and efficiency, the web filtering appliance is placed inline in order to see, evaluate, and report on all network traffic.

Keeps searches safe. The Lightspeed Rocket, Web Access Manager ensures that search results on Google and other popular search engines do not include inappropriate sites or images, such as pornography and sexual content.

Provides safe Web 2.0 access. The Lightspeed Rocket, Web Access Manager promotes a balance between learning and security by offering safe, easily-managed ways to access Web 2.0 tools and resources, share online resources, and engage in participatory learning.

Ensures speed and power. The Lightspeed Rocket, Web Access Manager includes a high-speed appliance, operating on top of a hardened and secured operating system, preinstalled with our best-of-breed Internet filtering software. This integrated solution provides fast, reliable web filtering for your high-capacity network.

Comprehensive, Customizable Reporting

The Lightspeed Rocket, Web Access Manager gives you access to comprehensive information about who is viewing what over the Internet, so you can adjust Acceptable Use Policies, change allowed usages, review problems and troubleshoot issues, and plan for ongoing needs. You can see a high-level overview of content viewed and blocked, and then drill down for detailed information, with reports like:

- Blocked Content
- Search Engine Queries
- Blocked URLs
- URLs visited
- Traffic by Category
- Overrides (active and history)

	Standard	Redundant	10Gb
CAPACITY			
Throughput (/sec)	1Gb	1Gb	10Gb
HARDWARE			
Rackmount chassis	1U	1U	1U
Dimensions (WxHxD in.)	16.8 x 1.7 x 22.6	17 x 1.7 x 25.6	17 x 1.7 x 25.6
Failover NIC	1Gb	1Gb	10Gb
Power supply	Single	Dual Hot Swap	Dual Hot Swap
Storage	Single Drive	4 Hot Swap RAID 10 Drives	500GB of RAID 10 Drives

Network Solutions for Safe Online Learning

Software solutions

Manage your school network with our all-in-one solution or its components:

Lightspeed Total Traffic Control

Filter, secure, manage, and monitor with a single solution.

Lightspeed Web Access Manager

Ensure safe web browsing with customizable filtering and features for safe Web 2.0 access.

Lightspeed Email Manager

Archive and report on communications, while blocking spam.

Lightspeed Security Manager

Block viruses, spyware, and malware with desktop and gateway security.

Lightspeed Network Traffic Manager

Control traffic with bandwidth management.

Lightspeed Power Manager

Manage energy use with automated power management.

High-capacity network solutions

High-performance, scalable appliance-based school network solutions:

Web Access
Manager

Ensure safe web browsing on your high-capacity network with comprehensive, customizable filtering and features for safe Web 2.0 access.

Email
Manager

Efficiently block spam on your high-capacity network, while archiving and reporting on communications.

Customize your high-capacity network solution with the addition of our other software products.

Get a comprehensive, cost-saving solution for your high-capacity network by combining the two Rocket appliances with Security Manager, Network Traffic Manager, and Power Manager.

About Lightspeed Systems

Lightspeed Systems Inc., founded in 1999, develops comprehensive network security and management solutions for the education market. We are committed to helping schools operate their networks effectively and efficiently, so educators can provide safe online teaching and learning environments.

Exceptional Service and Support

Our unparalleled service and support mean our solutions will continue to deliver, long after their easy implementation. With any Lightspeed Systems solution, you can depend on:

- 24/7 live-person phone technical support.
- Comprehensive online knowledge bases.
- The Lightspeed Wiki, rife with user collaboration and product expertise.

Professional Development & Training

Professional Development: We provide customized, collaborative professional development services to address your specific needs. For more information, please contact pd@lightspeedsystems.com

Training: To help you fully leverage your investment in Lightspeed Systems solutions, we offer an array of training options. For more information, please contact training@lightspeedsystems.com.

- Online introductory training and user demonstration videos.
- Administrator certification.
- Regional training throughout the U.S.
