

Filter. Secure. Monitor. Archive. Manage. Communicate. Collaborate. Engage.

Innovative solutions to help district IT staff more easily, safely, and efficiently manage their networks and open up new learning opportunities.

THE WORLD IS CHANGING. AND EDUCATION IS CHANGING.

Your challenge as IT is to keep things safe, secure, and efficient—while at the same time opening up new learning opportunities. It's as much about allowing the valuable stuff to get to your students as it is keeping the inappropriate stuff away.

Our solutions are designed for schools, and for IT. They make things easier and more efficient, but they also have the features that schools need—because we want to empower IT to transform education.

The Lightspeed Systems Suite

Our solutions are customizable and component-based to give you exactly the thing you (and your network, and your users) need.

Web Filter

Block inappropriate sites and allow valuable content with granularly customizable policies and an education-specific database.

Mobile Filter

Extend your filtering policies and protection to off-network users and devices, including iPad, iPhone and iPod touch devices.

My Big Campus

Promote collaborative, blended learning by extending the classroom to a safe, engaging online environment.

Educational Resource Library

Share safe, educational YouTube videos, sites, and documents.

Hosted Email

Open up communication with safe email accounts and private file storage (hosted solution).

Hosted District Web Site

Share district news, announcements, calendars and more.

Email Archiving

Meet eDiscovery regulations and Federal Rules of Civil Procedure with secure, searchable archiving of communications.

Spam Filter

Get the emails you want; filter the spam and viruses.

Antivirus

Secure your network against viruses and spyware, at the desktop and the gateway, with email, file, and content scanning.

Power Management

Conserve energy and reduce costs with automated shut-downs (available as an add-on to any Lightspeed implementation).

Advanced Web Traffic Reporting

Detailed information on user activity and web traffic.

Campus Collaboration Bundle

Combine web/mobile filtering, My Big Campus, Hosted Email and a Hosted District Web Site in a single solution.

WITH LIGHTSPEED SYSTEMS, YOU GET:

Solutions built for schools

Lightspeed provides the tools and features schools need to operate their networks effectively and efficiently, so educators can provide a safe online learning environment.

Customizability for your needs

Our solutions implement best-practice policies – but also provide the customizability and flexibility to adjust policies and databases on a granular level.

Comprehensive reporting

We'll arm you with comprehensive, actionable information about who, when, where, and how your network is being utilized, so you can adjust policies, troubleshoot issues, and plan for ongoing needs.

Safe Web 2.0 access

Strike a balance between learning and safety in your district by offering safe, easily-managed ways to access and share online resources and engage in participatory learning.

A focus on mobility

Keep your mobile program safe and secure while giving your anytime/anywhere learners access to the resources and connections that make education engaging and real.

Superior customer service

From our extensive online documentation, training, and Wiki to our friendly and knowledgeable 24/7 support staff, you'll always get the help you need.

Easy administration

Our easy-to-use, integrated solutions save time and reduce management headaches – so you can secure and manage your network without over-burdening your staff.

Our solutions offer the flexibility, features, and customizability to solve your IT challenges. But how they're delivered is important, too.

HARDWARE

Powerful appliances loaded with just the features you want provide easy install and a 3-year advance replacement warranty for ongoing peace of mind.

We have a Rocket that's right for you.

Lightspeed Rocket Appliances

Our high-speed, redundant, scalable appliances provide a single point of on-site management for your network.

HOSTED

Sometimes, a hosted solution can provide the perfect combination of accessibility and cost-savings. Many of our solutions are available in the cloud.

WE CAN HELP YOU CREATE THE PERFECT, CUSTOMIZED SOLUTION FOR YOUR NETWORK AND YOUR NEEDS.
