

Lightspeed Total Traffic Control: What's new!

We are always working to make our products better—creating the features our customers need to manage their networks in today's complex, mobile, collaborative learning environments.

HERE'S WHAT'S NEW:

Lightspeed Total Traffic Control

Version 8.0 (Released March 2010)

Lightspeed Rockets

Appliance-based solutions for web filtering and managing email on high-capacity networks.

My Big Campus

A free addition to TTC/Web Access Manager that provides safe, monitored access to Web 2.0 content and collaboration.

Real-Time Synchronization

Authentication, workstation overrides, and the Educational Video Library for multi-server networks.

Lightspeed
Educational Video Library

Version 7.03

(Released August 2009)

- Centralized management and consolidated reporting for multi-server environments
- Educational Video Library (EVL) advancements for safer, more usable sharing and viewing of approved YouTube videos
- Bing Safe Search to block inappropriate results and thumbnail images from search results

Version 8.01

(Coming May 2010)

- Backup utility
- High-volume data recording for reporting on large TTC deployments
- Browser app for Guide-like filtering on iPod touch and iPhone

Customers: Stay on top of these enhancements and other issues in the Lightspeed Wiki! (<http://wiki.lightspeedsystems.com>)
