

## Lightspeed Systems | Certification Training

Stay a step ahead of spammers, hackers, and your savvy (and not-quite-savvy enough) network users.

Become a Lightspeed Certified Administrator in just 5 days!

### TRAINING IN BRIEF

- 5-day certification course
- Hands-on labs
- High-quality instruction
- Take-home training manuals
- Certification exams on day 5
- Lunch each day

### Get even more at the Annual Training & Conference

At the 2011 Lightspeed Training & Community Conference in Myrtle Beach, SC or Austin, TX, you'll enjoy all the benefits of training, have all your meals on us, plus have opportunities to: voice your priorities for the future direction of product development, workshop timely issues, share best practices with a large set of peers, and talk directly with support technicians, developers, and executive staff.

### Cost & Registration

Lightspeed Certification Training, including the Annual Conference, is \$800, payable online with your purchase order, VISA, Mastercard, or American Express at:

<http://www.lightspeedsystems.com/training>

Seating is limited.

Offered throughout the year in various locations across the United States, Lightspeed's committed training staff makes it easy to get the continuing education you need to engage online threats as well as teaching and learning opportunities.

### Lightspeed certification training helps you

- Get the most from your Lightspeed software investment
- Reduce administrative load
- Better enforce your Acceptable Use Policies
- Expedite new-feature deployment
- Balance security concerns with 21st-century curriculum initiatives
- Keep your network secure and in regulatory compliance

### Who should attend?

Training is designed for key administrators who have at least six months experience with Lightspeed software – including network administrators, IT directors and district administrators, tech coordinators, computer technicians, and IT consultants. The week features both core courses and advanced electives with hands-on computer labs.

### What is required to become certified?

- Complete the live, online Introduction course or have 6 months experience with Lightspeed software
- Complete a 5-day certification course
- Pass the core exam with 70% or higher
- Pass the practical exam with 70% or higher

### Where do I get the training?

Good news. You have options. Lightspeed is offering its training at several venues throughout the year.

### Annual Lightspeed Training & Community Conference

#### Myrtle Beach, SC

April 4-8, 2011

*Maximum capacity: 50*

#### Austin, TX

April 18-22, 2011

*Maximum capacity: 60*

*Maximum capacity: 30*

[View the full schedule of dates and locations on page 2.](#)

### Fresno Pacific University

Earn 3 units by attending a 5 day certification course and passing.

## Past Conference Attendees Speak

What made this week especially good for you?

*"Application of new features to supplement our installation... meeting staff and the opportunity to build relationships with other professionals."*

– B.J., IN

*"Networking with other districts and learning new things to do on our TTC servers."*

– N.M., MO

*"Meeting everyone from Lightspeed. It was great to finally put faces to the names. Seeing how your company operates makes me believe in your product even more."*

– J.H., WI
